

## Health, Wellness & Education Courses

*To Meet Individual and Agency Needs*

### Keeping you and your staff current in health, safety, and care needs.

Life Changes of Ohio provides training and education to help you meet the requirements for today's health, safety and care providers.

Registered nurses certified in medication administration teach courses using the latest knowledge and research. Each course meets current state requirements for caregivers.

Life Changes of Ohio courses are recommended for employees and family members who care for elderly, disabled and MR/DD persons.

**Courses can be taught to meet agency or individual needs. Please call for details.**
